PROFESSIONAL SUMMARY

EC-Council Certified SOC Analyst (CSA v1) with hands-on experience in security monitoring, alert triage, log analysis, and incident response support. Familiar with SIEM tools such as Splunk and Wazuh for monitoring security events and investigating suspicious activities. Knowledgeable in networking fundamentals, OWASP Top 10, vulnerability assessment, and threat detection techniques. Experienced in using tools like Wireshark, Burp Suite, Nessus, and Nmap through SOC labs and security projects. Strong analytical, problem-solving, and communication skills with a strong interest in cybersecurity operations and continuous learning.

SKILLS

- **Tools** - Splunk (SIEM Tool), Wireshark (Network Analysis), Burp Suite (Web Application Security), Nmap, OSINT Tools, Metasploit, Nessus
- **SOC** - Alert Monitoring, Incident Triage, Incident Response, Threat Detection, Log Analysis
- **Networking** - Network Traffic Analysis, OSI Model, TCP/IP, Networking Protocols, Firewalls, IDS/IPS, VPN
- **Operating Systems** - Windows, Kali Linux, macOS
- **Programming Languages** - Python, HTML, CSS, JavaScript, MySQL
- **Machine Learning** - Scikit-learn, Isolation Forest, Random Forest
- **Soft Skills** - Problem Solving, Teamwork, Communication Skills, Continuous Learning
- **Languages** - Malayalam, English, Kannada, Tamil

EXPERIENCE

- **09.2025 – 05.2026 Cybersecurity Intern — Web Application Testing & SOC Operations | Way Labs (On-site, Kochi, Kerala)**
 - Gained hands-on experience with common web application testing tools including Burp Suite for identifying basic web vulnerabilities and analysing security findings.
 - Worked with SIEM tools such as Splunk and Wazuh for log monitoring, alert analysis, and basic security event investigation.
 - Performed vulnerability assessment activities and analysed security logs to identify suspicious patterns and potential threats.
 - Familiar with common web security concepts, OWASP Top 10 vulnerabilities, and basic SOC operational workflows.
- **02.2025 – 07.2025 CICSA Training — Certified IT Infrastructure & Cyber SOC Analyst | RedTeam Hacker Academy, Kochi**
 - Completed practical SOC operations and web security training focused on alert triage, threat monitoring, vulnerability assessment, and incident handling.
 - Gained hands-on experience with Splunk, Wazuh, Burp Suite, Wireshark, and vulnerability scanners through lab environments and security projects.

PROJECTS

- **AI-Powered SOC Threat Detection Assistant** *Python, CrewAI, AbuseIPDB API, GeolIP, Splunk*
Built a multi-agent AI automation system for SOC workflows including log extraction, threat enrichment, alert triage, and investigation report generation.
- **URL Phishing Detector** *Python, Flask, Google Safe Browsing API, REST APIs*
Developed a real-time phishing detection tool integrating threat intelligence APIs to identify malicious URLs and automate threat analysis workflows.
- **ML Threat Monitor** *Python, Flask, Scikit-learn, Isolation Forest, TailwindCSS*
Created an anomaly detection system for log and network analysis to identify suspicious behaviour patterns and generate SOC monitoring alerts.

EDUCATION

- **10.2021 – 08.2024 Bachelor of Computer Applications (BCA)**
Koshys Institute of Management Studies, Bangalore North University, Karnataka, Bengaluru, India

CERTIFICATIONS

- **09.2025 Certified SOC Analyst v1 (CSA)** EC-Council
- **07.2025 IT Infrastructure and SOC Analyst (CICSA)** RedTeam Hacker Academy
- **CompTIA Security+** Pursuing
